

Gedore Quickset Minor Imp FH Torque Screwdrivers

Quickset Adjustable Torque Screwdrivers achieve accurate torque application by eliminating both under and over tightening using Gedore Torque's proven slipping technology. This enables any user to deliver the correct torque with confidence regardless of task and operator skill level. Fast and accurate to set, using the quick and clear to read micrometer setting scale. A visible scale allows the user to adjust the tool to their desired torque setting, enabling a range of different torque settings to be applied. Each single Adjustable Torque Screwdriver can cover a broad variety of applications due to their wide torque range. Long service life is provided through the durable design utilising hard wearing materials such as stainless steel and aluminum. Increased operator comfort and productivity, from the smooth reset action of the tool and the ergonomic design. Range: 20-120 ozf.in

Specifications	Details
Product Number	016060
Brand	Gedore
Weight	165g
Calibration Range	1 ozf.in
Range Imperial	20-120 ozf.in
Model Number	Quickset Minor Imp FH
Drive Size	1/4"
