

Norbar HT5/125 1 1/2 Manual Torque Multipliers 340-3400NM, Output Square: 1", Input Square: 1/2"

Multiple stages of epicyclic gearing are used in Norbar's 'HandTorque' multipliers to provide a wide range of torque outputs and ratios to suit most applications. The torque multiplication ratio is always quoted, not the velocity ratio as some competitors' goods claim. For example, a velocity ratio of 29.8:1 would result in a torque multiplication of 25:14%.

Specifications	Details
Plate Torque	19 N.m
Tool Weight	7.9 Kg
Accuracy	+/-4%
Product Number	16064
Range Metric	340 - 3400 NÁ·m
Range Imperial	250 - 2500 lbfÁ·ft
Plate Weight	2.5 Kg
Velocity Ratio	162.284:1
Input Square	1/2"
Output Square	1"
Multiplication Ratio	125:1
Model Number	HT5/125 1 1/2"
Brand	Norbar
Max Input Speed	525 revs/min
