## Kennedy-Pro - 1/4 inch Drive, 5.5mm Bi-Hexagon Sockets

Screwdriver Bits Manufactured from high quality chrome vanadium, fully polished finish. Conform to DIN. Overall length: 37mm. Bit length: 19mm. Ideal for assembly and servicing of small precision mechanisms associated with electrical, electronic, ignition and refrigeration work. All bi-hexagon unless stated. Double knurl feature gives a high grip which is essential for a quick tool change when your hands are greasy/oily.
