

## IO-Link Master DataLine ifm electronic AL1322

The IO-Link Master DataLine - AL1322 from ifm electronic with EtherNet/IP interface offers a more secure transmission of sensor information with a transmission rate of 10/100 Mbit/s by separating your automation and IT network. Up to 8 IO-Link sensors can be connected to the IO-Link Master DataLine - AL1322. The connection is made via an M12 plug connection.

| Specifications           | Details                                  |
|--------------------------|--|
| Short-circuit protection | yes                                      |
| Ambient temperature      | -25...60                                 |
| Material                 | housing: PA; Socket: brass nickel-plated |
| Protection               | IP 65; IP 66; IP 67                      |
| Protection class         | III                                      |
| Operating voltage [V]    | 20-30 DC V                               |
| Application              | I/O modules for field applications       |
| Current consumption [mA] | 300...3900; (US)                         |
| Weight                   | 403g                                     |
