

## SWIFT PRO | Dual optical and video measuring system | 200 mm x 100 mm measuring range | 10X to 100X magnification

The measuring microscope from Swift PRO toolmakers simplifies the process of measuring precisely engineered parts and providing the findings. It is an excellent option for all manufacturing environments due to its industry-standard outputs, remarkable ease of use, and advanced functionality that combines the advantages of both optical and video measurement technologies.

You get quick, accurate measurements and a higher return on your investment thanks to the remarkable ease of use.
