

Elitech RC-4 | Temperature Data Logger | With External Temp Sensor Audio Alarm

- Connect directly to a computer to exchange data; simple to use: The program will automatically read data and provide reports when it is connected to a computer. On the LCD panel, display the temperature, time, overheating alert, upper and lower temperature limits, and temperature Max./Min. value. Two sensors: an external sensor and an inside sensor.

Specifications	Details
Temperature Range	Internal : -30Â°C +60Â°C External : -40Â°C +85Â°C
Resolution	0.1â°
Logging Rate	10 sec ~ 24 hr
Memory Capacity	16000 points (MAX)
Power Supply	3.0V lithium battery CR2450, replaceable
Dimensions	84 (L) * 44 (W) * 20 (H) mm
Weight	35 g
Protection	IP67
