

Norton Saint Gobain S2203 50mm VORTEX RAPID PREP SCM COURSE

Rapid Prep is the new Norton line of surface conditioning products (SCM). They are comprised of synthetic, non-woven fibers that are bonded to another material in order to give them more body and the appropriate rigidity for the application. This enables them to be used in numerous forms such as belts, quick-change discs, discs, rolls, and specialties. Scrim (hook & loop) and Y-wt. polyester are the bonded backing. Norton Vortex - Proprietary agglomerate grain technology that cuts faster and finishes finer, grit for grit. Improves efficiency with eliminated steps! Rapid Prep Low Flex (LF) Scrim back (Hook/Loop) Stiffest material Most durable Most aggressive Clean Bond Tech XC, C, M, F, VF grit Premium A/O grain Vortex grain - Cuts faster and finishes finer, grit for grit!

Specifications	Details
SKU	NOR2453310GTSM
For Use On	Aluminium
Disc Diameter	50 mm
Weight	1
Product Type	Disc
Grade	Coarse
Brand	Norton
