

Engis 3-FS-40 5gm HYPREZ DIAMOND COMPOUND

Final Polishing Hyprez Fivestar combined formula compound provides the unsurpassed cutting capability of natural diamond with the impact resistance of manufactured diamond. Formulated to withstand severe lapping conditions, the use of a stable carrier ensures sustained particle suspension throughout the process and an even surface coverage improving impregnation of laps. Suitable for use with Hyprez type OS (Oil Soluble) or Type W (Water Soluble) lubricants to meet specific requirements of material and surface finish. The Hyplicator dispensing syringe allows a precisely measured amount of compound to be applied, preventing contamination and wastage.

Specifications		Details
Product Type		Diamond Compound
Weight		5 g
Product Number		104.1024
SKU		ENG2571070GTSH
Colour		Green
Size		5g
Grain Size (Micron)		3
Concentration		FS-40
Brand		Engis
